macOS Catalina (10.15.x)

2019-10-09 - Chris - in [General](#)

Dear customers and partners,

macOS Catalina was released a few days ago and we would like to provide an overview about our products compatability below.

just:in & live:cut v4

- can be used with macOS Catalina. Please find the latest version [here](#).

just:play, just:live v2.7 & composition:builder v4

- can not be used with macOS Catalina. Please keep using macOS Mojave or below. There will be new versions with macOS Catalina support soon.

just:mount & just:automount

- can be used with macOS Catalina. Please find the latest version [here](#).

If you have any questions, do not hesitate to contact us.

Best regards,

TOA Team
